PVC PERGOLA

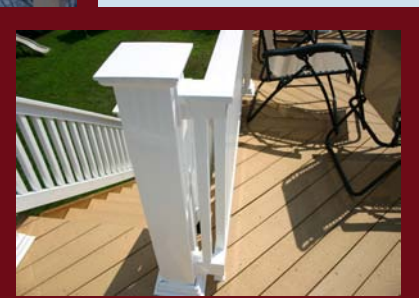

Did you know that Phoenix has all of the parts and pieces to build your own pergola? Whether you are looking for more shade, a decorative accent to your garden, or simply an entrance to your backyard, Phoenix PVC Pergola parts can be used to create the look you want. Not only does it look great, but the PVC components will not deteriorate over time like the traditional wood pergolas do.

Stair Set Back

STAIR SETBACK ADAPTER KITS

Right Angle Return

Have you ever had the situation where your post or column are set back a little too far from the edge of the stairs? If you cannot add another post, Phoenix offers an alternative solution. The Phoenix Stair Setback Adapter Kit includes welded aluminum angles and a small level section of railing to attach to the stair section to allow the rail to die right into the post or column without adding an additional post. (Right Angle Return Adapter Kits are available also).

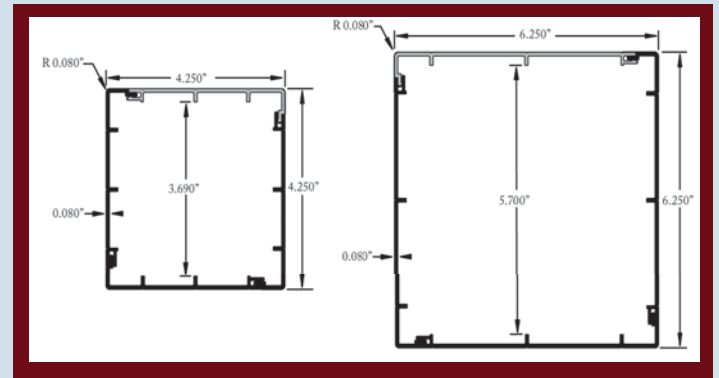

Is that a Bench or a Picnic Table?

Turn a bench quickly and easily into a picnic table with minimal effort. Plus all you have to do is hose it off to wash it!
